

# Heartland Fire Training Facility

## Firefighter Survival Training

(CA State Certified)

### COURSE DESCRIPTION:

Designed to help firefighters recognize emergencies and how to mitigate those situations. Students will learn firefighter fatality case study recommendations to enhance firefighter training to handle their own emergencies on the fireground, techniques for developing firefighter survival attitude, and identify personal equipment that firefighters should carry in their possession for self-preparedness measures.

Students will also gain knowledge in critical structural fireground factors and situational awareness to prevent firefighter emergencies and the application of “when to call a firefighter emergency” and emergency communications when firefighters become lost, trapped, or disoriented inside a burning structure, SCBA knowledge and techniques for air awareness and SCBA air emergencies, and applying them during hands-on evolutions.
